Principal's Desk

Education is a vast concept that cannot be constrained within the four walls of a classroom. It holds the power to transform capabilities into reality for the students by helping them discover the talent within them. The core aim of education is to nurture physical, moral and social advancement. Co-curricular activities go hand-in-hand with regular activities to augment a child's overall development. Co-curricular activities play an essential role in a student's life as they play an important part in enhancing the learning process at school and make it more engaging and fun. Education is important to everyone and if it is supplemented by co-curricular activities in school, it has the potential not only to propel pupils towards success but also enhance their personality resulting in a complete makeover. At JVK, our aim is to create complete intellectuals.

FUN -LEARNING EXPERIENCE

COLOURS DAY MERRY MAKING

"Colours are the smile of nature" - Leigh Hunt

From a child's perspective the world is filled with colours and surprises. To enhance their experience and make them identify and recognize the colours, JVK celebrated "colours day" on 29th of July. The curriculum is planned in such a way to enable the children to experiment with wide range of activities based on the colours. It was an excellent learning experience for children, which enhanced their visual discrimination and created a delightful smile in each and every bud present in the KG Department

RAINBOW DAY GAIETY

A Rainbow is an arc of colors and when we see it we have an arc (smile) on our face. To bring this arc into our children, our KG department celebrated the Rainbow Day on 12th of August.

Not only the children were dressed up in VIBGYOR but their classrooms too. Violet symbolizing spirituality, Indigo Imagination, Blue honesty, Green growth, Yellow High order thinking, Orange All Is well and finally Red with energy. The objective of this celebration was to bring out the awareness of the colors and above all the world is full of beauty and colors. 'That is the idea behind a day devoted to rainbows, because you can't help smiling when you see the bright, cheery bands of color.'

TALENT QUEST

Each child is unique, they have their own strength. They have huge unexplored potential and hold the best creativity. To unveil their potential KG department of JVK organised the "Talent Hunt-2022" on 17th and 18th of August for Lower and Upper kindergarten. Children exhibited various skills from dance to drama, songs to speech, drawing and many more. Each participant had one minute to showcase their talent. All the participants took the audience into their spell through their truly creative and enchanting acts. Kids prosper best with a broad curriculum that celebrates their various talents. JVK created the platform for it. And the day was fabulous.

"EVERY CHILD IS A DIFFERENT KIND OF FLOWER, AND ALTOGETHER MAKE THIS WORLD A BEAUTIFUL GARDEN"

INTER-SCHOOL COMPETITION-FOLK DANCE

INTER-SCHOOL CULTURAL EXTRAVAGANZA EVENT

'Perfection is not attainable, but if we chase perfection, we can catch excellence'. In the month of July, Students of JVK actively participated in "SV INTERSCHOOL ZEST FEST -22" organised by Sudharsanam Vidyaashram School. Students from grades VI-IX enthusiastically competed with 22+ top schools from Chennai as part of this diverse skill implementation competition. Our students succeeded in bagging first position in Junk art, won second places in Face Painting, Elocution and Debate, third place in Folk dance. The students prepared zealously to excel in respective events. Their vivacity and brilliance, was fully displayed in their presentations. It was a proud moment for JVK

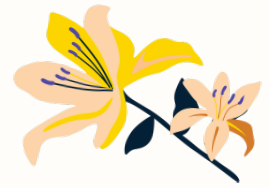

BOOSTING PATRIOTISM IN YOUNG MINDS

JVK synchronized a competition for Independence day on 12th of August to boost the patriotism in young minds .

The following competitions were held:

- *Dancing
- *Face painting
- *Rangoli
- *Clay molding
- *Drawing
- *Fancy Dress
- *Best out of waste
- *Poem Reciting

Students joyfully participated and made the day vibrant.

NURTURING THE YOUNG SCIENTIST

On 30th of July, Technology used in creation of drone and functionality of drone was demonstrated by Madras Media Head of the department Mr. Deepak. Students from grade VI-IX participated in the event .A live demo was given to the students in the presence of

"COMPETITION MAKES US FASTER; COLLABORATION MAKES US BETTER"

Director Mr. Ignatius Xavier.A, Campus Superior Sr. Mourin and Principal Mr. Manoj V.A

HONOURING THE FREEDOM FIGHTER

India celebrated its 75th Independence Day as 'Azadi Ka Amrit Mahotshav' to commemorate its freedom. 15th August, 2022 was a day of immense pride and joy for all Indians. On this day, JVK & SJMHSS honored our heroes and freedom fighters who sacrificed their lives for the nation, to bring us the freedom, peace, and joy. To make this day a special one various cultural activities were organized

The Chief Guest for the Occasion was:

Mr. John Max, Film Producer

The Programme commenced with a prayer

followed by unfurling of the tricolour flag by Director Mr. Ignatius Xavier.A, Campus Superior Sr. Mourin, Principals Mr. Robert Rajan and Mr. Manoj V.A and chief guest. To make the day more memorable one, Cultural activity was presented by JVK & SJMHSS. The handful number of events are:

- Dances
- Speeches
- Mass Drill
- Skit portraying the life of heroes in the borders was fabulous.

We all pledged to do something great for our country and make it proud. We thank our school for organizing such a patriotic and interesting program on Independence Day

CAPACITY BUILDING PROGRAM

Capacity building program was organized by JVK on 13th of August.

*Pedagogical plans, Assessment of outcomes & its importance

*Interactive board training

*Planning of lesson and "stem" activities were the topics covered. The guests of Honour for the day were

***Mrs. Jeevakiran, Academic Coordinator DFT,**

***Mrs. Lakshmi Priya, Principal of Loyola Matriculation Tambaram.**

The day was highly Informative and enlightening.

SEMINAR ON DEVELOPMENTAL PSYCHOLOGY & SCIENCE OF MIND

Symposium on Child psychology was arranged by the management on 30th of July for all the luminary of SJMHSS and JVK. The programme commenced with Bible reading and Prayer. Mr. Vijay from Cordova Publication gave a appealing seminar on child Psychology and how to evaluate them. It was an eye-opening session.

INHOUSE PEDAGOGY

In-service education can simply be defined as the relevant courses and activities in which a serving teacher may participate to upgrade his professional knowledge, skills, and competence in the teaching profession. JVK conducts these activities consistently for the benefit of teachers there by influencing the students.

ACADEMIC INITIATIVE

Periodic assessment -II commenced on 22.8.2022 and concluded on 26.8.2022. Students actively participated in the exams and the results were announced.

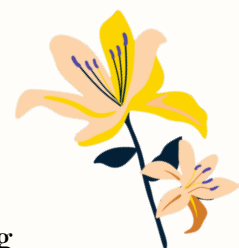

Upcoming Terminal question papers are framed and verified by the respective department head.

PRIMING OF FACILITATORS

Mr. Manoj V.A, Principal of JVK conducted motivational workshop for teachers on 6th of August in the presence of Director A. Ignatius Xavier. He quoted his personal life experience and encouraged the teachers to have more optimistic outlook.

On 12th of August Principal Manoj V.A delivered a talk on 'Innovative Teaching Methodology'. Given below are the few methodologies listed by him:

- Flipped methodology,
- Project-Based Learning
- Gamification
- Problem-Based Learning
- Thinking-Based Learning
- Competency-Based Learning
- Cooperative Learning
- Design Thinking

KALAM'S WORLD RECORDS

JVK and SJMHSS acumen is not to get ahead of others, but to get ahead of ourselves. To break our own records. We strive everyday.

EDITORIAL PAGE

On 75th Independence day "portrait painting of 75 Freedom fighters by 75 students "in 20 minutes is one such record which we cherished setting it. Chief guest for this event was **Mr.Kumaravel , CEO of Kalam's book of Records.**

The Chief Guest distributed the medals and certificate to the participants . Then he delivered a very motivating speech and appreciated the dignitaries who took a great effort in achieving the record.

And it is no wonder we will never stop with it and JVK's thirst for book of records have just started .

ACTIVITY BASED LEARNING

JVK focuses majorly on "Activity Based Learning".

Grade I-Rules to be followed in Traffic signal, rearranging numbers

Grade II-Word building activity

Grade III-Imitating the Birds activity and forms of water activity

Grade IV-Puppet & Mask Making activity,

Grade V-Save environmental rally,

Experimenting on the properties of water

Grade VI-Working model of Globe

Grade VII-Chart on different monuments

Grade VIII-Activity on Liquid pressure and magnetic force

Grade IX-Essay writing on Drug Addiction and its harmful effects etc

10 Tips for Teaching Your Child to Save Money

The habit of saving money may be a crucial life skill, but it's not one that always comes easy. In fact, a 2021 survey by LendingClub found that as many as 54% of American adults were living paycheck to paycheck, with little or no money set aside for future needs.

The savings habit is an important one to help kids establish when they are young. Teaching them about delayed gratification when it comes to money can help them guard against unnecessary spending and learn to value establishing control of their money. With that in mind, here are 10 steps you can take to get your kids on the saving bandwagon.

KEY TAKEAWAYS

- Saving money is a habit that parents can teach their children at a young age.
- The first step is to explain important concepts such as savings, a budget, and goals—then keep the conversation going.
- Giving children an allowance can teach them the value of money—and of hard work, if chores are involved.
- Younger children might keep their savings in a piggy bank, but older ones might want to keep their money in a bank while working on their goals.
- Children can learn the importance of living within their means, which is one of the basic tenets of saving.

1. Discuss Wants vs. Needs

The first step in teaching kids the value of saving is to help them distinguish between wants and needs. Explain that needs include the basics, such as food, shelter, basic clothing, healthcare, and education. Wants are all the extras—from movie tickets and candy to designer sneakers, a bicycle, or the latest smartphone.

2. Let Them Earn Their Own Money

Two-thirds of parents said they paid their children an allowance in 2019, according to a survey by the American Institute of Certified Public Accountants (AICPA), with kids earning ₹500 per week on average, based on five hours of chores. If you want your children to become savers, allowing them to earn and save money provides them with the opportunity to learn how to use it. When you offer allowances in exchange for chores, they're also learning the value of their hard work.

3. Set Savings Goals

To a kid, being told to save—without explaining why—may seem pointless. Helping children define a savings goal can be a better way to get them motivated. If they know what it is they want to save for, help them break down their goals into manageable bites. If they want to buy a ₹5000 video game, for example, and they get a ₹500 allowance

each week, help them figure out how long it will take to reach that goal, based on their savings rate.

4. Provide a Place to Save

When your children have a savings goal in mind, they'll need a place to stash their cash. For younger kids, this may be a piggy bank, but if they're a little older, you may want to set up their own savings account at a bank or even get a kid-friendly debit card.

5. Have Them Track Spending

Part of being a better saver means knowing where your money is going. If your children get an allowance, having them write down their purchases each day and add them up at the end of the week can be an eye-opening experience. Encourage them to think about how they're spending and how much faster they could reach their savings goal if they were to change their spending patterns.

6. Offer Savings Incentives

If your child has set a big savings goal—for example, a ₹ 15000 tablet—you could offer to match a percentage of what they have saved. As an alternative, you could offer a reward when your kid reaches a savings milestone, such as a ₹1000 bonus for hitting the halfway mark.

EDITORIAL PAGE

7. Leave Room for Mistakes

Part of putting kids in control of their own money is letting them learn from their errors. It's tempting to step in and steer kids away from a potentially costly mistake, but it may be better to use that mistake as a teachable moment. That way, they'll know in the future what not to do with their cash.

8. Act as Their Creditor

One of the basic tenets of saving is not to live beyond your means. If your child has something they want to buy and feels impatient about saving for it, becoming your kid's creditor can help to teach a valuable lesson about saving.

Say your child wants to purchase something that costs ₹500. You could "lend" the money and require payment from the allowance that you provide, with interest. The lesson you want to teach is that saving may mean delaying gratification longer, but the item you want to buy will end up costing less if you wait.

9. Talk About Money

In a 2021 T. Rowe Price survey, 41% of parents said they don't like to talk with their children about money, with many expressing embarrassment about bringing up the topic.⁶ However,

if you want kids to learn about saving, you have to nurture an ongoing discussion. Whether you schedule a regular weekly check-in to talk about money or make money chats part of your daily round, the key is to keep the conversation going.

10. Set a Good Example

If you want your children to become savers, being one yourself can help.

Getting your emergency fund in shape, opening a savings account, are all steps that you can take to encourage saving as a family activity.
