New Year Resolution 2023 For Students

We are humans with good and bad bundled together. Washing away unwanted habits from us and cultivating new and positive habits and disciplines as a part of life is necessary. Setting New Year Resolution is a good move to renew ourselves year after year.

What makes a perfect New Year Resolution? An idea that shapes and reflects you in a better way can be considered a New Year Resolution. As students, we should refine our thoughts, cultivate good habits and enhance our personality every year.

As it is widely believed that New year is a chance for many men to get rid of some old habits and bring positive and productive changes in their day to day lives. People from all walks of life set target and make resolutions in order to lead happy, content, peaceful and prosperous life. Resolutions are often made to do away with bad and useless activities. All activities that let go time unproductive and yield into nothing are erased and replaced into new activities that never go in vain and bring productive changes. It's very hard to avoid rampant activities that destroy our lives. I am a student, to me time is the most precious thing. If I will kill time now, it will kill me tomorrow. My new year resolutions are enlisted below.

- 1) Earlier to bed and will rise early.
- 2) Get organized.
- 3) Learn something new.
- 4) Exercise regularly

- 5) Stop procrastinating
- 6) Try to be more assertive
- 7) Eat healthy foods
- 8) Enjoy every moment of life
- 9) Help others specially needy people
- 10) Reducing unproductive use of time.

In order to attain my above mentioned resolutions and goals I will bring many changes in my day to day. One of the biggest cause of procrastination is excessive use of social media specially Facebook, Whats App, Twitter etc. Apart from it, I will limit the time I spend in front of the television.

Instead of watching television excessively I will try to find a sport that I like and play that game in order to keep myself fit and smart. A good student is known by his behavior and character. I will be respectful to my parents, teachers and elders because respecting and obeying elders is counted in good manners.

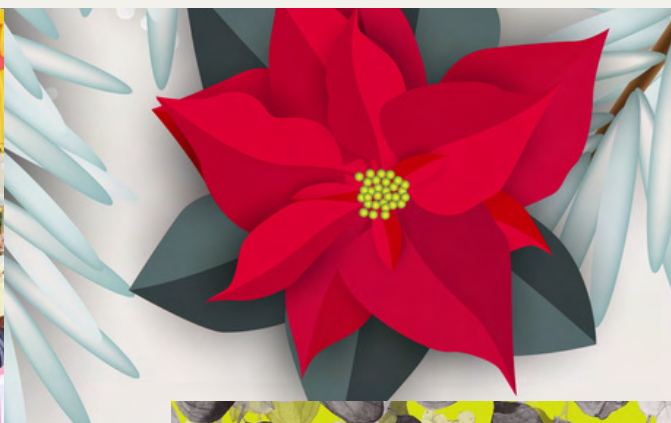

Good manners makes our personality. These changes will enhance my personality. My New Year resolutions will not only help me to eliminate my bad habits and adopt good habits but it will also make my future bright and make me successful at every junction of life.
