"It's been a year since we became a part of this wonderful organization"

PRINCIPAL'S DESK ★

WHERE INNOVATION IS A PROCESS

21st-century education is not only about preparing or providing knowledge to the student community; it also includes forming the habit of learning beyond the classroom. Innovative environment is a complimentary learning program for regular classrooms that encourages students to leverage their capability by applying the knowledge and skills learned from the camp to classroom and future lives. JVK delivers an array of fun and hands-on learning activities that inspired students to create innovations and simultaneously shaped students' communication, collaboration, critical thinking, and creativity skills.

Through the endless learning experience and opportunities for students to explore outside the classroom, innovation labs will equip youth with crucial STEM thinking, 21st century skills, and inspiration to pursue careers related to STEM in the future. We are committed to creating an impactful skill based labs for our students to ignite the continuation of 21-century citizenship. Innovation need not be a product of chance but leaning transcends all barriers.

FLAVOUR CARNIVAL ★

Care and share feels the happiness of togetherness. To promote healthy eating habits among the children. Kiddies of grade 1 to 3 made a cafe including traditional savouries, salads, soups, veggies and non veggies enriched with proteins, vitamins, minerals, carbohydrates and fats.

It was an attempt to raise awareness among students about the benefits of millets, organic food and avoid the junk food. In this Mirthful food fest students brought homemade snacks and food and it was shared. This food fest was organized by JVK on 28th of October. Students participated on this event enthusiastically and the day was full of flavours.

A FORMAL AUDIT

“Education is not the learning of facts, but the training of the mind to think” by Einstein

We, at JVK aim for the same concept of education. We believe that education should train the young minds to think out of the box and guide them to achieve the desired results. To achieve it, the school organizes different strategies from time to time to groom its facilitators to make the learning environment for children to be worth enjoying, and to enhance the conceptual approach of the students.

At JVK, We had immense pride in the visit that took place on 28th of October AND 23rd of November. This zenith of success of our students was impossible to achieve without the never ending spirit, dedication and hard work of the teachers.

Few classrooms, teaching methods, lesson plan, board maintenance were observed by Academic Coordinator from DFT in a very precise manner. At the end of session convention was organized. Principal Mr. Manoj. V.A, Vice Principal Mrs.Lalitha and Academic Coordinator Mr.Vijimon chaired the meeting. In the meeting each and every teachers were called out individually for appreciation and suggestions. At the end of the visit every teacher had a clear view and knowledge about the strategies that needs to be followed for the betterment of the students. We as a JVK family assure that we will strive for the betterment of children always.

ROAD SAFETY PATROL TRAINING :★

One of the most frequently expressed road safety concerns is the safety of children outside the schools. During school drop-off and pick-up times, the roads are the immediate vicinity of schools and are especially busy and there is usually a high level of vehicles, pedestrian and cyclist activities. This causes congestion and very often leads to frustration from residents and motorists. An apparent chaos caused by parents and children arriving or leaving the school. Although relatively few incidents occur on or near the school site, it is important that school leaders have taken all reasonable steps to avoid them. In JVK we take care of adequate risk assessments if any unfortunate happens in and around the school site. In order to guide and train children in all these activities our school has arranged a monthly once patrol training. This training is headed by Mr.Haribabu (Avadi Police Commisionerate)

BENEFITS OF THE TRAINING:

- -Awareness about road safety to children.
- -Creating future patrol in a disciplined manner by a well trained officials
- -Selected children in the training will be honored and taken to the parade which will be held in the Commisionerate during Republic and Independence days.

- During this training students will be provided with separate uniform .
- And the training will be coordinated by JVK staff Mr.Senthamizh, who is the member of patrol training Avadi commisionerate

UPLIFTING YOUNG MINDS

"Competition is always a good thing. It forces us to do our best. "Nancy Pearcey. To boost and nurture the creativity of the students JVK synchronized a competition for Children's day on 9th of November. There were two levels of competition being conducted Semi-finals and Finals. Given below are the List of Competition that was organized:

- English Elocution
- Flame-less Cooking
- Pot painting
- Nail Painting
- Ramp Walk
- Coconut shell painting
- Fancy dress
- Singing
- Dancing etc

Students enthusiastically participated in the events and showcased their skills. The day was energetic and vibrant

KG-ORIENTATION PROGRAMME ★

“It is not what you do for your children, but what you have taught them to do for themselves that will make them successful human beings.” An Orientation programme for the parents of KG department was organized by JVK on 19th of November. The day commenced with a prayer followed by the Principal addressing the gathering and introducing the resource person .The Guest for the day was Mrs. Anila Suresh (counsellor, psychiatrist & life skill trainer)

- A small activity was conducted by which the parents were asked to pick up the card and questions were asked by the counsellor.
- Gradually the session glided into the topic of “Effective parenting”.
- Four ways of parenting was briefed in the programme they were:
 - 1.Democratic
 - 2.Control
 - 3.Easy-going
 - 4.Uninvolved
- Each topic was explained lucidly with mutual conversation.
- Valuable guidelines and suggestions were given by the counsellor to mould the children. Doubt clearing session was methodized with the counsellor.

- A suggestion box was placed and the parents were asked to drop their valuable feedback about the orientation programme.
- More than 300 parents participated in this event.
- The day was highly an eye opening session and the parents appreciated the effort of management for organizing a wonderful session.

CHILDREN'S DAY FESTIVITY

Children's Day is celebrated across India to raise awareness about the rights, education, and welfare of children. It is celebrated on 14 November every year on the birthday of the First Prime Minister of India, Pandit Jawaharlal Nehru, who was known to have been fond of children.

A day marking childhood, and to make this event a memorable for our little ones, JVK celebrated the children's day in the premises on 15th of November. The day commenced with prayer followed by Choir ,Skit , diversified dances were performed by the facilitators followed by Director Mr.Ignatius Xavier.A, and Principal Mr.Manoj V.A addressing the Children.On this occasion winners of Children's day Competition were announced Trophies, medals and certificates were give out on applauding their performance. The day was triumphantly joyful.

A FORMAL VISITATION ★

On 18th of November Secretary Sr. Jehani, Correspondent Sr. Mourin visited the JVK campus and discussed about the Academics, Admission and Promotion of JVK.

ACADEMIC INITIATIVE

Periodic Assessment kick started on 21st of November. PA3 was conducted for 40 Marks. It came to conclusion on 25th of November. Students earnestly participated and the air was zealous. The Papers was distributed on 28th of November and the marks were exchanged.

ACTIVITY BASED LEARNING

Activity-based learning facilitates better understanding by creating far learning grounds for everyone. It ensures that the student is always engaged in learning; sharpens the analytical skills and problem-solving skills of the learners and also promotes the binding between tutor and learner. JVK emphasis on Activity based learning

- Grade I-Animals around activity role play
- Grade II-On my blackboard, days of the week
- Grade III-Indoor games and out door games activity
- Grade IV-Finding the parts of the circle, Properties of water activity

- Grade V-Properties of air activity
- Grade VI-food pyramid
- Grade VII-Windstorm and cyclone Activity
- Grade VIII-Activity on Liquid pressure and magnetic force
- Grade IX-Potential and kinetic energy through activity etc

AN ADMIN CONFERENCE

On 19th of November JVK organized a Conference for the system Administrators of the various DFT schools. It possessed brainstorming and doubt clearance sessions. The banquet and refreshments were provided to all the admins participated in the conference.

ROAD SAFETY FOR KIDS

13 Rules To Ensure Road Safety For Kids

While it is important for children to know about road safety rules and regulations, they should not be given more information than they can handle. Here are a few basic road safety rules for kids that you can begin with:

1. Know Your Signals

- Green means 'go': Only when the signal turns 'green', vehicles move ahead.
- Red means to 'stop': When the signal turns red, all the vehicles have to stop.
- Yellow means to slow down: When the signal turns yellow, vehicles should slow down and prepare to stop.
- The 'Walk' or a walking man symbol at intersections are for pedestrians. Cross the road only if these signs turn green. But look to the left and right to ensure no vehicles are approaching.
- Never cross the road if the sign says 'Don't Walk' or if the walking man symbol turns red.
- Sometimes a hand symbol is used instead of the walking man or 'Walk' signals. Tell your kid about that too. If there are other symbols for pedestrians, you should make it a point to let them know. Gradually, teach your children about the other essential traffic signals they should know.

2. Stop, Look, And Cross

Your child may have to walk to school or the bus stop and back. They may only have to cross the street after the school bus drops them off. Even if they don't, they may have to cross the street to get to a friend's house or a neighbor's. Whatever the case is, you should teach your kids to cross the road safely. Here's how you can help them learn.

Always look for signals and use the pedestrian crossing to cross the road. In the absence of such markings, here is what you should do:

- Look to your right and then to the left and back to the right to see if there are any approaching vehicles.
- If yes, wait for the vehicle to pass and then cross the road.
- Never cross at bends.
- Never cross between stationary vehicles.
- Adults should always accompany children aged less than six and hold their hand when crossing the street.

3. Pay Attention – Listen

- Teach your kids that they may not always be able to see an oncoming vehicle, especially if they are standing near a bend. Therefore, they should listen to know if a vehicle is approaching. Cars and other vehicles on the road often use the "horn" at bends and at unmanned intersections to indicate that they are nearing. Tell your children:

- If they hear a horn, stop and look to the left and right to see if any vehicle is approaching.
- Listen for engine sounds nearby to know if there is a moving vehicle – explain how a loud noise indicates the vehicle is nearby,
- and a faint sound means it is away. The sound of tires also means that a vehicle is approaching.

4. Don't Run On Roads

- Children may not always have patience and may tend to run across the street to get to the other side. They may also run along the road in your neighborhood while playing. Tell your kids never to run across or along the road. Children can get distracted easily and leave their guardian's hand to run or sprint away.

5. Always Use Sidewalks

- Teach your kids to use the sidewalk when walking on the road. Set an example for them by using the walking paths yourself. Whether it is a busy street or not, encourage your kid to use the sidewalk to stay safe on the road.

6. Crossroads and Pedestrian Crossing

- Kids have a tendency just to sprint across the street, anywhere they like. That can be dangerous as passing vehicles do not slow down unless there is a signal or a crossroad. Tell your kids to cross only at an intersection and use the pedestrian crossing. If they are in a small neighborhood where there is no crossroad or marked crossing, they should follow the rules mentioned above.

Lessons on pedestrian safety for kids are important and should be included in school curriculum as well.

7. Never Stick Hands Outside The Vehicle

Kids tend to put their hands out of the school bus even when it is moving. Some of them may even put their head out to look back and wave. This is common with students taking the school bus. It may seem like a fun idea but sticking hands or head out of a moving vehicle can be highly dangerous. If children are not careful, they could be hit by vehicles approaching from the opposite direction or they can be hit by things that are close to the road, like signs and trees.

8. Never Cross Road At Bends

Bends are the blind spots for motorists. When you cross at a bend, you do not give the vehicle drivers enough time to spot you and stop the car. Tell your kid never to cross at a bend as that can increase the chances of them getting hurt.

9. Staying Safe On A Bicycle

If you have an older kid who rides his bike to school or around the neighborhood, make sure he is aware of and follows the following cycling rules to stay safe on the road.

- Always wear a helmet when riding a bike.
- Check if the bicycle is in working condition before using it – check for breaks and light, if using at night.
- Always use the bicycle lane. In its absence, ride the bike on the extreme right or left side (whichever is right in your country) of the road and move along with traffic. Keep your eyes and ears open to make way for larger and faster vehicles behind you.

- Always use a light in areas with poor visibility and at night, to be easily noticed by motorists. It is helpful to wear reflective material and flashing lights to help motorists notice you in the dark.

Do not allow kids to ride a cycle on busy streets without parental supervision.

10. Staying Safe Inside A Moving Vehicle

In a moving car, you can make sure that your kid is safe with the help of a car seat or seat belts. To see that they are safe in a moving vehicle without you, make sure they learn and follow these simple rules:

- Never stand inside a moving vehicle, especially a school bus or van.
- Students should not move around inside a moving school bus.
- Stay seated and hold on to the hard rail inside the bus for support, until the vehicle comes to a stop.
- Do not put any part of the body outside the window of a moving vehicle.
- 11. Always Get Out At The Curb Side
- If your kid takes the school bus every day, help them remember these safety tips.
- Start early and be on time to avoid running for the bus.
- Always stand in the queue when boarding and alighting the bus.
- Always get off the curb side when getting off a car or the bus to prevent being an obstruction to the other vehicles on the road.

12. Be Seen, Stay Safe

Dressing in black may be a bad idea when you want to walk at night. It is important that vehicle drivers notice you if you want to stay safe. To be seen:

- Wear light colored clothes or reflective material when walking or biking at night.
- Wear bright clothes during the day.
- Wear lights or flashing lights to help motorists see you at night.
- Wave your hand if you want to indicate your presence to an incoming vehicle.

13. Don't Rush

Children can get excited and rush in an attempt to get to a place or meet someone. That can be dangerous. Teach your kids to:

- Not rush when getting into or off a vehicle as it can be hazardous.
- Not get distracted or suddenly drag the parent or guardian in a particular direction as this can throw the adult off guard.
- Stay calm and do not rush when walking on the street.
- Not open the car doors suddenly as they get into a habit of opening the doors only after you say so.
- Do not play in the bus bay or on the roads.
